

	be invited to the next meeting of the group.	
4. Cross cutting themes	BL expressed concerns regarding sustainability being at the core of the plan, i.e. low carbon, energy efficiency, climate change etc and that all working groups should be addressing this theme within their groups and to set out a possible series of principles. It was proposed that this could become a wider discussion at the next Steering Group. TGW will pull together some examples of overarching principles.	TGW
5. Update from TGW	TGW reported that by the next Steering Group meeting all the Working Groups would have met again and there is a need to now start moving forward. It would be good to look at the results and conclusions of the groups as there will have been lots of discussions around the same issues and how we could fine tune them for the plan. These results could then be mapped on the large maps.	
6. Grant Funding	LB informed the meeting that the grant funding application has been approved to the value of £4,100.	
7. Next Steps	Continue with the Working Group meetings.	
8. Date of next meeting	26 March 2018
